Dear (attorney name)

As a plaintiff attorney whose practice involves physical injury, physical sickness and wrongful death, you already may be aware that structuring your fees in conjunction with a claimant's structured settlement is becoming an established practice.

If you have considered structuring your own fees, you may have questions, such as:

- How will a structured settlement of my fees be taxed?
- Can my fees be structured even if my client elects not to structure any other portion of the settlement?
- What payment options are available?
- I don't want to structure all of my fees – can I structure a portion of them?

We can help you answer these questions and others you may have. The enclosed information, prepared by The Hartford, is a good place to start. It introduces some of the basics involved with attorney fee structures and shows how The Hartford's attorney fee product (which we believe to be an exceptional value) may help you to achieve your goals.

Keep in mind that this information is only a start. We would be delighted to meet with you to discuss this opportunity further. I will follow up with you within a week or two to answer any questions you may have. In the meantime, please don't hesitate to contact me if you have any questions about this material or how a structured settlement might work for you.

Sincerely,

(Your name and contact information)
